

Hi, I'm Lanna

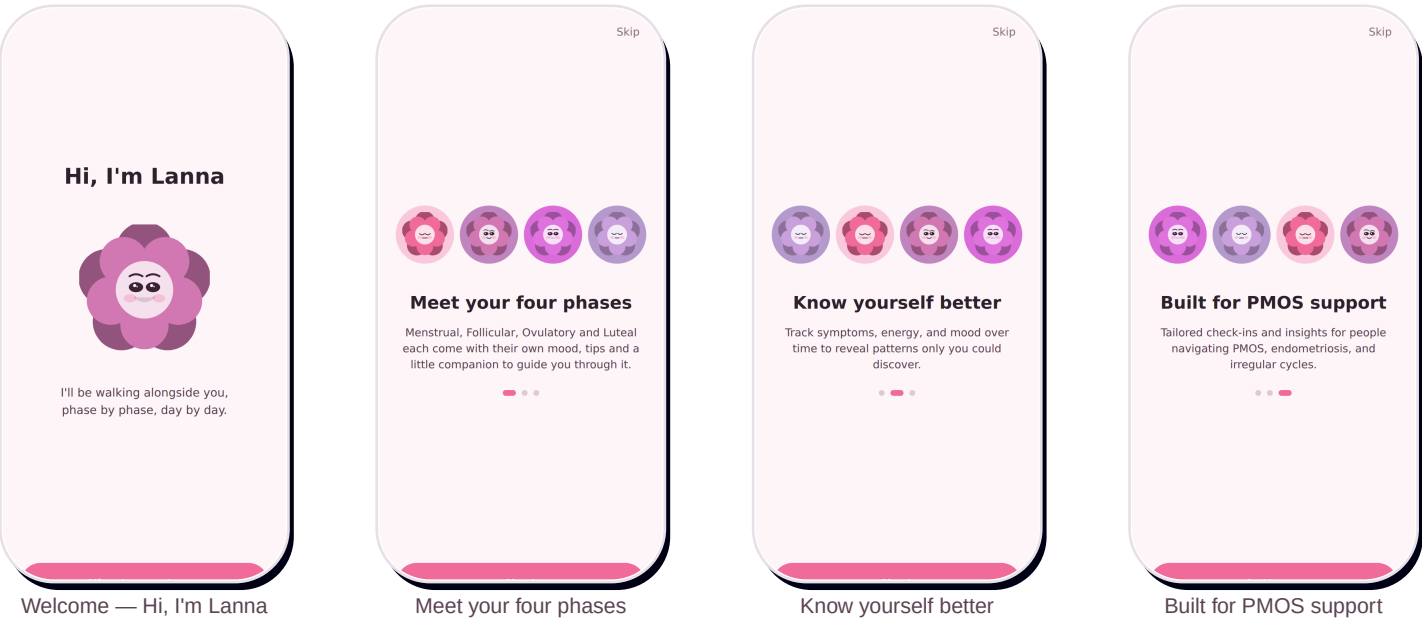

I'll be walking alongside you,
phase by phase, day by day.

Onboarding — Introduction

Welcome screen, Lanna mascot, and three value-prop slides

Brand voice — zero guilt, companion tone

"Hi, I'm Lanna. I'll be walking alongside you, phase by phase, day by day." · "Meet your four phases — each comes with its own mood, tips and a little companion." · "Know yourself better — reveal patterns only you could discover."

Onboarding — Setup

Name, personalise, cycle length, and last period date

And what shall I call you?

Just your first name is perfect.

Your name

Name entry

Does any of this apply?

We'll tailor your check-ins around it. You can always change this later.

PMOS

Endometriosis

Irregular cycles

Trying to conceive

None of these

Personalise

How long is your cycle?

Count day 1 of your period to the day before the next.
Most cycles are 24-35 days.

28

days

-

+

Not sure? 28 is a great starting point.

Cycle length

When did your last period start?

This helps me get your cycle right from day one.

Pick a date

Upload screenshot

Tuesday 4 August 2026

Last period started

Tuesday 4 August 2026

Last period date

Low-pressure copy throughout

"Just your first name is perfect." · "Does any of this apply? You can always change this later." · "Most cycles are 24–35 days. Not sure? 28 is a great starting point." · "This helps me get your cycle right from day one."

Hey Lanna

Day 1 of 28

Menstrual phase

Rest and release

About this phase

Rest mode is activated, and that is valid.
Your body is doing important work right now,
so slow down where you can.

● Menstrual ● Follicular ● Ovulatory ● Luteal
